

Easter Fayre 2018

During Golden Time this term, the children have formed their own 'companies' as part of an enterprise challenge. Each company has been set the challenge of developing and producing a product for sale within a set budget. The project has required the children to use their maths skills for budgeting, their English skills to produce persuasive and informative posters as well as their creative skills for the design technology aspect of the project. The children have taken on the challenge with great enthusiasm, team work and inventiveness.

As well as their own products they have decided on and created games with an Easter theme and the children would now like to invite you to come along and enjoy their Easter Fayre. Their lovely products will be on sale and they will have also baked Easter food items to sell. The games will be running and there will be refreshments available too.

They will decide for themselves what any profit will be spent on – something to enhance their own classrooms or a one-off special item.

Please look out for their adverts, and we hope to see you at the Fayre on Tuesday 27th March at 2pm until 3.00pm.

Thank you
