

Shepeau Stow Primary School

Dear Parents,

After School Minecraft Club for Y3, Y4 & Y5

After school Minecraft clubs now run all over the UK. Children can use the school tablets to take part in an hour of constructive fun.

Is Your School Up To The Challenge?!

As the largest provider of after school Minecraft Clubs in the country Mi Little Pad are able to offer a number of exciting features that literally no one else can!

- A massive inter-school weekly competition with great prizes!
- Exciting YouTube channel with videos every week showcasing the children's' work!

Inter School Competition

Each week all the after school Minecraft Clubs start with a quick build competition based on the term's theme. The students have great fun coming up with their quick creations and choosing who should be the winner from the club.

The chosen winner from each school is then published on their website each week for parents, teachers and children to vote on!

The winner each week from all the schools around the country earns points for the school leader board. Take a look at the website to see what our schools have been up to this week! www.milittlepad.com

The cost is £3.99 per child per session and is paid half termly in advance online directly to Mi Little Pad Ltd. At least eight children need to sign up each half term for the club to go ahead.

If you are interested in taking part in a Minecraft after-school club, please complete the form below and return to school by Friday 20th October 2017. Replies can also be accepted by email.

✂

I am interested for my child to take part in the Minecraft after-school club.
